Revelle College Council 2010-2011
Meeting #23 Agenda
Tuesday, February 15, 2011

- I. Call to Order
- II. Roll Call
Excused:
Present: Diana, Zhi, Carlos, Mikey, Vay, Liz, Utkarsh, Meena, Rachel, Stella, Matt, Brittany, Jessica, Gabbie, Angela, DRBT, Desi, Xinwei Yousaf, Cathy, Erika
- III. Approval of Minutes
 - Minutes from Meeting #22. Move to approve. Second. PBC.
- IV. Announcements
- Semi Formal moved to later date
- V. Public Input and Introduction
 - Andrew Ang- SFAC
 - Ryann from Revelations distributing new issue
- VI. Items of Immediate Consideration
 - Provost Wayne: We are facing budget cuts, which we are struggling to handle. We are working to improve campus climate.
 - 1. Our major goal is to preserve the education and morale of our current state and being responsible on what we don't have in terms of funding. We are trying to do our best with the resources we have access to. We are three years ahead in terms of budgeting. Last year the staff was concerned with keeping their jobs and facing pay cuts, which results as greatly affected morale. Our staff has been wonderful with pulling through these times. Also we are focusing on diversity issues, including increasing the number of transfer students.
 - 2. The conduct code still needs more consultation from students and staff. The main difference between the new code and old code is the process of how it was created: maximized student participation. It's been a learning process. There are a lot of representatives from different areas of college life, we've all learned from each other. There is still a lot of processes need for this code. It's a switch from a legalistic perspective to a judicial perspective.
 - 3. We are open for suggestions, on how to better the relationship between staff and student if there are any gaps between the two. The provost encourages participation and would love to be more visible.
 - 4. The criticisms towards USA Today were that there were open bins and that the students were not receiving the benefits of the program. Also, many people receive their news online, not the newspaper. There were some issues on the survey, the newspapers are not "free", the program is paid for by the students.
 - 5. The changes in the GEs started due to complaints regarding the difficulty of the GEs outside the major. The issue regarding changing GEs to pass /no pass is still being discussed. Diversity within the UCSD college GEs is necessary for the small college experience for such a large campus.
 - 6. In order to maintain state funding, there has been a new requirement for more transfer students, and more diversity within the college.

- 7. RCC can help the administration by offering suggestions on how to better the relationship between students and administration.
